

ST HELENS SWIMMING CLUB

MISSION STATEMENT

Our mission is to offer children the best opportunity in the St.Helens area to develop and achieve their maximum potential in the sport of swimming.

We aim to achieve this by providing a secure, caring and orderly environment where each child is encouraged to work together during training and to compete as a team as well as an individual.

We will hold annual club championships, and encourage all members to compete in local and national competitions, participating in both team and individual events.

We will work closely with St.Helens Council and local schools to increase our membership and develop the sport long term within the borough.

We endeavour to create a relaxed yet orderly climate, which enables the children to take pleasure from their swimming, and pride in their performances, in the full knowledge that talents of all kinds will be recognised and nurtured.

Attendance is an essential requirement of a successful swimmer and parents are encouraged to take an active role in the club and ensure that training sessions are regularly attended.
